

South African DXCC Members: First past the Post

This list is an attempt to recognise firsts by South African stations in the ARRL's DXCC programme. The information was manually extracted from *QST* magazines (1947 to 1996) and *DXCC Yearbooks* (1993 to 2014) and online listings (2005--). More complete lists can be found on zs6ez.org.za/lists. © 2012 to 2018 Chris R. Burger ZS6EZ

Single-Band DXCCs

Single-band DXCCs were adopted in stages, starting with 1,8 MHz around 1975 and ending with 10 MHz in 2002. 5BDXCC was announced in 1968, with the first certificate issued in 1969. For the moment, there is no DXCC credit for contacts on 5 MHz.
